When handlers use closed systems, enclosed cabs, or aircraft in a manner that meets the requirements listed in the Worker Protection Standard (WPS).
CHIPCO SIGNATURE FUNGICIDE is a systemic fungicide, which may be used in a seasonal program or Special Local Need labeling. American Society of Agricultural and Biological Engineers (ASABE) standard ANSI/ASAE S572.1.

### APPLICATIONS

**Bentgrass Dead Spot:**
- Use the more restrictive of label limitations and precautions. A preventative, multi-application (repeated every 14 days) program tank-mixed with the products listed below in accordance with the most restrictive of label tank-mix partner requirements.
- Add CHIPCO SIGNATURE FUNGICIDE to the tank after the tank mix partner has been added and thoroughly mix.

**Pythium:**

- Application Interval: 21 days
- Concentration: 3.0 to 4.0
-.INTERVAL: 22 days

### Precautions

- Do not apply this product in a way that will contact workers or other persons, either directly or indirectly. Do not contaminate waterways.
- Do not graze animals on treated turf. Do not feed clippings from treated turf to livestock and poultry.
- Maintain continuous agitation in mix tank during mixing and application to assure a uniform mixture.
- If a tank mix with other fungicides is used, follow label directions for the use of that product and the tank mix partner.
- Do not mow and/or water treated areas until foliage is completely dry.

### Other Instructions

- Do not connect an irrigation system (including greenhouse systems) used for pesticide application to a public water system unless the label-prescribed safety devices for public lines, pressure switch, which will stop the water pump motor when the water pressure decreases to the specified pressure.
- The system must contain a functional check valve, vacuum relief valve, and low-pressure drain valve.
- The pesticide injection pipeline must contain a functional, automatic, quick-closing check valve to prevent backflow.
- Maintain continuous agitation in mix tank during mixing and application to assure a uniform mixture.
- Read and follow all directions and precautions on this label and on the label of the product mixed with CHIPCO SIGNATURE FUNGICIDE has been completed, further field irrigation over the treated area should be avoided for 15 minutes after mixing. Read and follow all directions and precautions on this label and on the label of the product mixed with CHIPCO SIGNATURE FUNGICIDE has been completed, further field irrigation over the treated area should be avoided for 15 minutes after mixing.

### Disposal

- Non refillable container. Do not reuse or refill this container. Triple rinse container (or equivalent) and tapping sides and bottom to loosen clinging particles. Empty residue into application equipment or a mix tank or store rinsate for later use or disposal. Drain for 10 seconds after the rinsate has been added, then offer for recycling if available or dispose of in a sanitary landfill or by puncture and dispose of in a sanitary landfill, or by puncture and dispose of in a sanitary landfill.
- Fill the container ¼ full with water and recap. Shake for 10 seconds. Pour rinsate into application equipment or a mix tank. Fill tank with 1/2 to 3/4 the desired amount of water. Start mechanical or hydraulic mix tank. Fill tank with 1/2 to 3/4 the desired amount of water. Start mechanical or hydraulic mix tank.
- Then offer for recycling if available or puncture and dispose of in a sanitary landfill, or by puncture and dispose of in a sanitary landfill.

### Limitations of Liability

- To the extent consistent with applicable law, the exclusive limitations of liability:
