

AFTER 15 YEARS OF RESEARCH,
WE'VE FOUND A BETTER WAY.

TAKE THE **CRAZY** OUT OF **TREATING** MEGA COLONY **ANTS**

IN COOL MONTHS, BROADCAST
MAXFORCE COMPLETE GRANULES
AROUND THE PERIMETER.

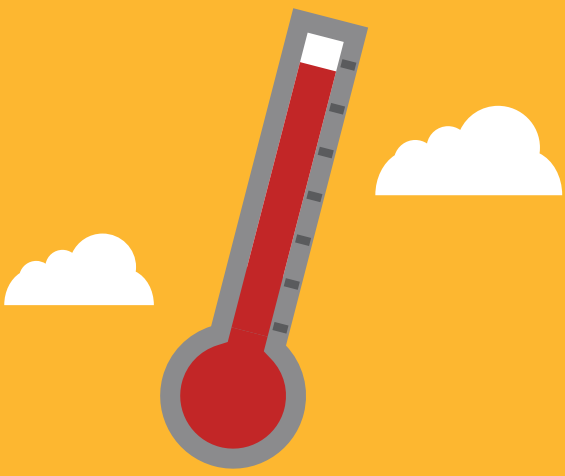

BROADCAST AT
A RATE OF
0.5 OZ
PER 25 LINEAR FT

THEN PLACE STATIONS BAITED
WITH MAXFORCE COMPLETE.

SPACE THEM EVERY
20-30 FT. AROUND
STRUCTURE.

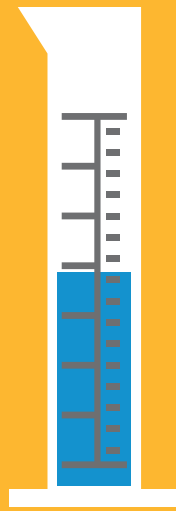

THAT'S ABOUT
TWO PER SIDE OF A
TYPICAL HOUSE.

IN THE SUMMER MONTHS,
USE MAXFORCE QUANTUM
DILUTED WITH SUGAR WATER.

FORMULA

- 1 TUBE OF **Maxforce[®] QUANTUM**
- 8 OZ SUGAR
- 1 QT WATER

SHAKE THE SOLUTION WELL
AND DISPENSE INTO LIQUID
BAITING STATIONS.

PLACE
STATIONS
EVERY

**25 TO 50
FEET**

IN ADDITION, YOU CAN USE SPRAYS AS SPOT-TREATMENTS,
BUT DON'T SPRAY THE BAIT.

THIS COMBINATION APPROACH IS RECOMMENDED FOR
COMPREHENSIVE MEGA COLONY ANT TREATMENT.
